CRITÈRES DE SÉLECTION

1. Thématique(s) abordée(s) par la revue

- Doit être identique ou proche de celle de votre article
- Consulter la présentation de la revue (*Aims and scopes*) et les instructions aux auteurs
- Privilégier les revues dont vous lisez les articles pour votre recherche

CRITÈRES DE SÉLECTION

2. Types d'articles publiés par la revue

- Ex. : de recherche, de synthèse, de vulgarisation, ...
- Consulter la présentation de la revue (*Aims and scopes*) et les instructions aux auteurs
- Parcourir les sommaires des derniers numéros

CRITÈRES DE SÉLECTION

3. Lectorat de la revue

- Ex. : scientifique du même domaine, d'un domaine connexe, décideurs, professionnels, grand public, ...
- Consulter la présentation de la revue (*Aims and scopes*) et les instructions aux auteurs

4. Langue de la revue

- Choix de la langue en fonction du public cible
 - Communauté scientifique internationale = anglais
 - Lectorat national ou local = langue du pays

5. Délais de publication

= délais d'acceptation + délais de fabrication

- Varient généralement de 6 à 12 mois
- Préférer les numéros spéciaux (délais et coûts de publication souvent réduits)
- <https://scirev.sc/> (Partage d'expérience)

CRITÈRES DE SÉLECTION

6. Notoriété/crédibilité de la revue

- Vérifier la notoriété des membres du comité éditorial
- Vérifier sa procédure d'acceptation
- Vérifier son historique de publication
- Identifier les auteurs des articles publiés
- Vérifier le référencement de la revue dans des bases de données bibliographiques (ex. Scopus, PubMed)
- Vérifier le nombre de citations au niveau des articles
- Vérifier son *Impact Factor* ou son *CiteScore*

JCI: Manuscript submission

Cellular Immunology & Immunotherapeutics [immunology@excelyticspublishers.net]

À : Sculier Jean-Paul

Dear Dr. Jean-Paul Sculier,

Greetings from our reputed Journal of Cellular Immunology and Immunotherapeutics- a Special Issue

Hope you are doing well!!!

It's a great privilege for me to consider you as potential author and invite you to contribute a manuscript for consideration and publication in forthcoming Issue to be published in **Journal of Cellular Immunology and Immunotherapeutics**.

This Issue will contain a collection of papers written by authors who are leading experts in the field. Inclusive Review articles, Original Research articles, Commentary, dissertation and Case study reports are most welcome.

If you like to publish your manuscript, you may submit to us right now, so we will go with review process as soon as possible, and let you know the feedback and necessary corrections to be made if necessary. Please let us know your possible time to deadline for submissions is **March 28, 2017**.

Kindly, let us know as early as possible if you are interested in submitting a manuscript for this Special Issue. It is a great opportunity to take part in and to influence future trends and advancements in one of the fastest growing fields of research.

For more details: <http://excelyticspublishers.com/cellular-immunology-immunotherapeutics/>

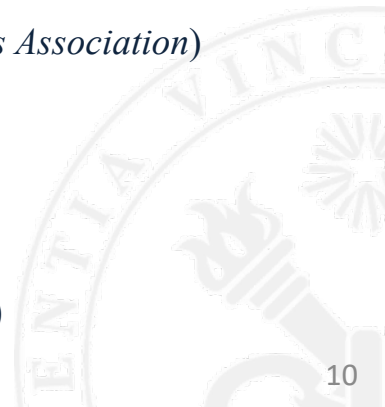

You may submit your paper by e-mail at immunology@excelyticspublishers.com (or) online at <http://excelyticspublishers.com/cellular-immunology-immunotherapeutics/submit-manuscript.php>

We will be looking forward to hear a positive response from you soon.

Have a blessed day ahead!!

With warm regards,
William Smith

Aims and scope

Lung Cancer aims to provide individuals or organisations with the most recent information on lung cancer and other thoracic malignancies. The Journal publishes original research and review articles on clinical and basic science aspects of topics represented by the fields of interest of Lung Cancer (prevention, epidemiology and etiology, basic biology, pathology, clinical assessment, surgery, chemotherapy, radiotherapy, combined treatment modalities, other treatment modalities, outcomes). Manuscripts describing studies on cell lines will only be considered if the data compares at least two types of distinct cell lines and the results have general implications on the understanding of the biology of chest tumours. Authors of studies on cell lines must also agree to make freely available to other researchers any of the cells, clones of cells, or DNA or antibodies, etc, that were used in the research reported and that are not available from commercial suppliers.
