About me

Edit

Introduction

I am an Information Specialist in Health Sciences at the Medical library of the Université libre de Bruxelles. I hold a BA in Library and Documentation Sciences from HENaC (Belgium), a MA in Information and Communication Sciences and Technologies and a PhD in Information and Communication from ULB. My doctoral research explored the process of collaborative tagging and its resulting folksonomies. My principal research interests concern Web 2.0, information management and bibliometric indicators.

ASK & ANSWER QUESTIONS

The screenshot shows the top navigation bar of the R6 platform. The 'Questions' tab is highlighted with a red box. Below the navigation bar, the 'Q&A' section is visible, featuring a user profile picture and two blue buttons: 'Ask a technical question' and 'Start a discussion'. At the bottom of this section, there are three tabs: 'Questions we think you can answer' (which is underlined), 'Questions you follow', and 'Questions you asked'.

The screenshot displays the 'Research' and 'Answers' section of the R6 platform. On the left, under the 'Research' tab, there is a list of categories: 'Projects (9)', 'Research items' (with sub-items: 'All (43)', 'Article (36)', 'Chapter (2)', 'Conference Paper (5)', 'Full-texts (13)'), 'Questions', and 'Answers (1)'. On the right, under the 'Answers' tab, a specific question is shown: 'What are the possible approaches to couple two discrete simulation models developed in d...'. The answer is provided by 'Frédéric Debaste' on 'Dec 10, 2014'. The answer text reads: 'Hi, I'm afraid there is no general answer to this question. The answer depends on the type of interactions and on the (ratio of) time scale of the different phenomena you are trying to couple. Could you be a little bit more specific about the phenomena and/or equations you are trying to couple? Regards'. Below the answer, there are links for 'View' and 'Recommend'.

Étape 1 : profil

Étape 2 : articles

Étape 3 : mises à jour

- Nous utilisons un modèle statistique pour identifier les nouveaux articles dont vous êtes l'auteur. Nous pouvons également mettre à jour les données bibliographiques des articles de votre profil ou identifier les articles en double, afin que vous puissiez les fusionner ou les supprimer. Comment souhaitez-vous procéder ?
 - ☒ Mettre à jour automatiquement la liste d'articles apparaissant dans mon profil (*recommandée*)
 - ☐ Ne pas mettre à jour automatiquement mon profil. M'envoyer à la place un e-mail pour que j'examine et confirme les mises à jour
- Vous pouvez également ajouter et supprimer des articles spécifiques, mettre à jour les données bibliographiques et fusionner des articles en double. Si vous avez activé les mises à jour automatiques, vos modifications seront conservées.
- Nous allons recueillir et afficher toutes les citations de vos articles trouvées dans Google Scholar. Elles seront automatiquement mises à jour afin de refléter les changements dans votre profil et dans Google Scholar.

SOLUTION = *ORCID ID*

DISTINGUISH YOURSELF IN THREE EASY STEPS

ORCID provides a persistent digital identifier that distinguishes you from every other researcher and, through integration in key research workflows such as manuscript and grant submission, supports automated linkages between you and your professional activities ensuring that your work is recognized. [Find out more.](#)

1

REGISTER

Get your unique ORCID identifier [Register now!](#)
Registration takes 30 seconds.

2

ADD YOUR INFO

Enhance your ORCID record with your professional information and link to your other identifiers (such as Scopus or ResearcherID or LinkedIn).

3

USE YOUR ORCID ID

Include your ORCID identifier on your Webpage, when you submit publications, apply for grants, and in any research workflow to ensure you get credit for your work.

<https://orcid.org/>

ADD YOUR ORCID-ID IN SCOPUS

Option 1 : in Scopus

Cleeremans, Axel

① [Université libre de Bruxelles \(ULB\)](#), Brussels, Belgium [Show all author info](#)

SC 57202423509 ① **Connect to ORCID** ⚙️ [Is this you? Connect to Mendeley account](#)

[Edit profile](#) [Set alert](#) [Potential author matches](#) [Export to SciVal](#)

Option 2 : in ORCID

▼ Funding (0) ? [+ Add funding](#) [Sort](#)

Funding captures grants and other awards you have received to support your research. [Add funding.](#)

▼ Works (11 of 11) ? [+ Add works](#) [Export works](#) [Sort](#)

LINK WORKS [Hide link works](#)

ORCID works with our member organizations to make it easy to connect your ORCID ID and link their records. Choose one of the link wizards to get started. [More information about linking works](#)

[Search & link](#)
[Add ArXiv ID](#)
[Add DOI](#)

Scopus - Elsevier

Import your Identifier, profile and publications. The wizard helps you find the correct Scopus profile and to confirm your publications. You can then import the identifier and list of publications into ORCID. Any changes you make will be submitted to the Feedback team to update your Scopus profile. ➔

MAKE YOUR WORK OPEN ACCESS

= Ensure the widest accessibility

2 ways to make your work Open Access

- **Green OA** : deposit your articles in electronic open archives
 - Subject or institutional archives (ex. Di·fusion)
 - Articles published or unpublished
 - Content accessibility : indexation by search engines
- **Gold OA** : publish your articles in OA journals
 - Peer-reviewed scientific journals but other business models (e.g. APC)
 - Entire journals in OA
 - OA options offered by some traditional publishers (*hybrid journals*)

Networking during pandemic

Social networking platforms

- Create and complete your profile
- Connect with other researchers
- Like and comment on other researcher/expert posts
- Join/follow interest groups and associations

Virtual conferences & meetings

- Take advantage of online availability = attend
- Publicize your attendance (eg. post reviews afterward)
- Register on the event guide/mobile event app
- Check out the attendees list and profiles to identify your networking targets
- Do not be a passive observer
- Ask questions and interact in the chat
- Sent follow-up e-mail to presenters
- Participate in “social events” (eg. virtual bar)
