

Erasmus+ Programme

Key Action 1

– Mobility for learners and staff – Higher Education Student and Staff Mobility

Inter-institutional¹ agreement 2014/15-2020/21² between programme countries

[Minimum requirements]³

The institutions named below agree to cooperate for the exchange of students and/or staff in the context of the Erasmus+ programme. They commit to respect the quality requirements of the Erasmus Charter for Higher Education in all aspects related to the organisation and management of the mobility, in particular the recognition of the credits awarded to students by the partner institution.

A. Information about higher education institutions

Name of the institution (and department, where relevant)	Erasmus code	Contact details ⁴ (email, phone)	Website (eg. of the course catalogue)
UNIVERSITE LIBRE DE BRUXELLES	B-BRUXEL04	Ecole polytechnique de Bruxelles Prof. Guy WARZEE (until mid 2014) email : gwarzee@ulb.ac.be Tel : +32(0)2-650 27 71 – CP 194/2 Prof. Marie-Paule DELPLANCKE (as from 2014) email : Marie-Paule.Delplancke@ulb.ac.be Tel : +32(0)2-650 29 02 – CP 165/63 avenue Roosevelt, 50 B – 1050 Bruxelles (Belgium)	http://www.ulb.ac.be/facs/polytech
Delft University of Technology Faculty of Electrical Engineering, Mathematics and Computer Science	NL Delft01	Ms Gerdien de Graaf Institutional Erasmus+ coordinator, Tel.: +31 15 2788012 Email: g.degraaf@tudelft.nl Administrative Coordinator: Mrs. Hatin Pediz-Tekis Tel: +31 15 278 3506 email: exchange-eemcs@tudelft.nl	http://www.tudelft.nl/exchange http://www.tudelft.nl/exchange

¹ Inter-institutional agreements can be signed by two or more higher education Institutions

² Higher Education Institutions have to agree on the period of validity of this agreement

³ Clauses may be added to this template agreement to better reflect the nature of the institutional partnership.

⁴ Contact details to reach the senior officer in charge of this agreement and of its possible updates.

B. Mobility numbers⁵ per academic year

The partners commit to amend the table below in case of changes in the mobility data by no later than the end of January in the preceding academic year.

FROM	TO	Subject area code	Subject area name	Study cycle	Number of student mobility periods
[Erasmus code of the sending institution]	[Erasmus code of the receiving institution]	* [ISCED]	*	[short cycle, 1 st , 2 nd or 3 rd] *	Student Mobility for Studies
[total number of months of the study periods or average duration*]					
NL-DELFT01 = Delft University of Technology - Faculty of Electrical Eng., Mathematics and Computer Science B-BRUXEL04 = Université libre de Bruxelles - Ecole polytechnique de Bruxelles					
B-BRUXEL04	NL-DELFT01	0541	Mathematics	2 nd	1x5 = 5
NL-DELFT01	B-BRUXEL04	0541	Mathematics	2 nd	1x5 = 5
B-BRUXEL04	NL-DELFT01	061	Information and Communication Technologies	2 nd	2x5 = 10
NL-DELFT01	B-BRUXEL04	061	Information and Communication Technologies	2 nd	2x5 = 10
B-BRUXEL04	NL-DELFT01	0713	Electricity and Energy	2 nd	1x5 = 5
NL-DELFT01	B-BRUXEL04	0713	Electricity and Energy	2 nd	1x5 = 5
B-BRUXEL04	NL-DELFT01	0714	Electronics and Automation	2 nd	1x5 = 5
NL-DELFT01	B-BRUXEL04	0714	Electronics and Automation	2 nd	1x5 = 5

⁵ Mobility numbers can be given per sending/receiving institutions and per education field (optional*:
<http://www.uis.unesco.org/Education/Pages/international-standard-classification-of-education.aspx>)

*[*Optional: subject area code & name and study cycle are optional. Inter-institutional agreements are not compulsory for Student Mobility for Traineeships or Staff Mobility for Training. Institutions may agree to cooperate on the organisation of traineeship; in this case they should indicate the number of students that they intend to send to the partner country. Total duration in months/days of the student/staff mobility periods or average duration can be indicated if relevant.]*

C. Recommended language skills

The sending institution, following agreement with the receiving institution, is responsible for providing support to its nominated candidates so that they can have the recommended language skills at the start of the study or teaching period:

Receiving institution [Erasmus code]	Optional Subject area	Language of instruction 1	Language of instruction 2	Recommended language of instruction level ⁶	
				Student Mobility for Studies [Minimum recommended level: B1]	Staff Mobility for Teaching [Minimum recommended level: B2]
B-BRUXEL04		English	French	--	--
NL-DELFT01		Dutch: all Bachelor's programmes except Aerospace and Applied Earth Sciences; Nanobiology partially in English. English: all Master programmes.	N/A	C1 (language certificate required)	C2 for teaching in the Bachelor's and the Master's (language certificate required)

The TU Delft language requirements for admission at BSc and MSc level are specified on the website www.tudelft.nl/exchange and [Admission requirements exchange students](#). Language requirements are subject to change. We recommend exchange students to check the website before they apply.

D. Additional requirements

[Please specify whether the institutions have the infrastructure to welcome students and staff with disabilities.]

B-BRUXEL04 :

ULB's student disabilities' service, offer of the assistance and organize, if required, assistance or possible timetable adjustments, to allow disabled students to complete their exchange's period in the best possible conditions.

⁶ For an easier and consistent understanding of language requirements, use of the Common European Framework of Reference for Languages (CEFR) is recommended, see <http://europass.cedefop.europa.eu/en/resources/european-language-levels-cefr>

NL-DELFT01 :

For a summary about all information for exchange students download the Information Sheet Exchange TU Delft at tudelft.nl/information-sheet-incoming-exchange

TU Delft strives to make all academic programs accessible for students and staff with a disability. To do this, all the university buildings must be accessible; but this can also mean that the classroom, lecture hall and laboratory facilities are altered in such a way as to make it easier for you to follow your academic courses. It may also be the case that academic or examination materials are offered in alternative forms. TU Delft is always open to good ideas and suggestions for making improvements. Further information is available at tudelft.nl/en/students/services/studying-with-a-disability/

E. Calendar

1. Applications/information on nominated students must reach the receiving institution by:

Receiving institution [Erasmus code]	Autumn term* [month]	Spring term* [month]
B-BRUXEL04	May 1st	October 1st
NL-DELFT01	April 1 st	October 1 st

[* to be adapted in case of a trimester system]

2. The receiving institution will send its decision within 4 weeks (ULB) / within 8 weeks at the latest (TU Delft).
3. A Transcript of Records will be issued by the receiving institution no later than [5] weeks after the assessment period has finished at the receiving HEI. (At TU Delft: tudelft.nl/academic-calendar-and-assessment-period and at ULB <http://www.ulb.ac.be/facs/polytech/index.html>)
4. Termination of the agreement

In case of termination a notice of at least one academic year should be given. This means that a unilateral decision to discontinue the exchanges notified to the other party by 1 September of one academic year will only take effect as of 1 September of the following academic year. The termination clauses must include the following disclaimer: "Neither the European Commission nor the National Agencies can be held responsible in case of a conflict".

F. Information

1. Grading systems of the institutions

B-BRUXEL04 :

<http://www.ulb.ac.be/enseignements/presentation/fr/presentation-fr-ects.html>

NL-DELFT01 :**Dutch grading scale**

The Dutch grading scale, implemented from primary school through university level, goes from 1 (very poor) to 10 (excellent). At TU Delft final marks are rounded off to whole and half figures. A 6.0 is a pass. Although the scale runs from 1.0 to 10.0, the marks 9.0 and 9.5 are not frequently awarded and 10s are extremely rare. The meaning of the marks is as follows:

Mark	Definition
9.5 – 10.0	Excellent
8.5 – 9.0	Very good
7.5 – 8.0	Good
6.5 – 7.0	More than satisfactory
6.0	Satisfactory
4.5 – 5.5	Nearly satisfactory
3.5 – 4.0	Unsatisfactory
1.0 – 3.0	Very poor

Sometimes a 'V' is awarded instead of a mark to indicate that the requirements for a particular subject have been fulfilled. 'VR' instead of a mark indicates that a student has been exempted from an examination or practical exercise on the grounds of a previous examination, degree audit or practical exercise completed within the higher education system that corresponds with the subject for which exemption is sought, as regards content and study load, or on the grounds of knowledge and/or skills acquired outside the higher education system.

Grading systems and 'grading culture' vary from country to country. In the Netherlands a 1 – 10 grading scale is commonly used. The Dutch grading culture is rather conservative: a 10 or even a 9, is not often awarded. At TU Delft even higher standards are the norm. The average grading results of TU Delft BSc and MSc students are available at: tudelft.nl/grading-scale

2. Visa

The sending and receiving institutions will provide assistance, when required, in securing visas for incoming and outbound mobile participants, according to the requirements of the Erasmus Charter for Higher Education.

Information and assistance can be provided by the following contact points and information sources:

Institution [Erasmus code]	Contact details (email, phone)	Website for information
B-BRUXEL04	mobilite@ulb.ac.be	http://diplomatie.belgium.be/fr/Services/venir_en_belgique/ http://www.ulb.ac.be/enseignements/cpe/cpedocs/guide-fr.pdf
NL-DELFT01	Ms C.M. Crone +31 15 2788012 internationaloffice@tudelft.nl	tudelft.nl/visa

3. Insurance

The sending and receiving institutions will provide assistance in obtaining insurance for incoming and outbound mobile participants, according to the requirements of the Erasmus Charter for Higher Education.

The receiving institution will inform mobile participants of cases in which insurance cover is not automatically provided. Information and assistance can be provided by the following contact points and information sources:

Institution [Erasmus code]	Contact details (email, phone)	Website for information
B-BRUXEL04	mobilite@ulb.ac.be	12 Euro are requested for ULB insurance, this covers any accidents that might occur in the pursuit of academic activities http://www.ulb.ac.be/services/etudiant/s/assurances-etudiants.html
NL-DELFT01	Mr Ir. A.J.C. van der Wel +31 15 2788012 internationaloffice@tudelft.nl	tudelft.nl/insurance

4. Housing

The receiving institution will guide incoming mobile participants in finding accommodation, according to the requirements of the Erasmus Charter for Higher Education.

Information and assistance can be provided by the following persons and information sources:

Institution [Erasmus code]	Contact details (email, phone)	Website for information
B-BRUXEL04	Office.du.Logement@ulb.ac.be	http://www.ulb.ac.be/logements/index.html
NL-DELFT01	Mr Ir. A.J.C. van der Wel +31 15 2788012 internationaloffice@tudelft.nl	tudelft.nl/housing

G. SIGNATURES OF THE INSTITUTIONS (legal representatives)

Institution [Erasmus code]	Name, function	Date	Signature⁷

Information sheet for incoming exchange students 2014-2015

Contact information

At TU Delft, all international exchange programmes are managed by our faculties/departments who welcome all queries from prospective exchange students. Your faculty or department is responsible for advising, informing, selecting and accepting your application as an international exchange student. Any requests for information and applications can thus be directed to the [coordinators for international exchange](#) of your particular faculty. Check the end of this flyer for more contact details or see [contact details faculty coordinators international exchange](#).

Applications for the 2014-2015 academic year

How to apply

All information concerning admissions and applications for exchange programmes can be found at the TU Delft website, including our [admission requirements, application process, and our application form](#).

Exchange students are generally accepted by faculties for one or two semesters¹ and some faculties may accept exchange students for their thesis project. It is important to note that any final thesis project conducted at TU Delft is the responsibility of your home university. Exchange students are not eligible for a TU Delft diploma. Any student seeking to undertake a research-based project at TU Delft is responsible for finding their own suitable project and a TU Delft supervisor, and must organise this well in advance².

Application deadlines

Autumn Semester	1 April
Spring Semester	1 October

Applications that are incomplete or received after the deadline will not be considered.

Academic information

Academic calendar 2014-2015

Autumn Semester 1 September 2014 – 31 January 2015
Spring semester 9 February 2015 – 3 July 2015
Exam retakes 10 August 2015 – 14 August 2015

Overview of courses, course availability and learning agreement

TU Delft's course catalogue (www.studyguide.tudelft.nl) outlines all the available courses for 2014-2015. Your study plan should be based on this current course catalogue, bearing in mind that changes may occur (the course catalogue will be updated in May 2014). A [studyguide manual](#) is available to help you. Some faculties also offer Bachelor-level [thematical minors](#) programmes taught in English, a list of which can be found on our website.

TU Delft's faculties cannot guarantee your place on any individual course as each course placement is subject to availability, the fulfilment of certain preconditions, and timetabling factors. As an exchange student we advise you to be flexible and, before your arrival at TU Delft, have alternative courses ready and approved by your home institution academic advisors. All students are given a two-week period at the start of each semester to make any appropriate modifications to study plans, pending that these changes are approved and validated by all parties. Any further queries regarding courses can be emailed to your faculty exchange coordinator using the contact details below.

¹ The Faculty of Architecture and the Built Environment offers fixed course packages to incoming exchange students. Bachelor students can only choose from the English-taught Bachelor minor programmes. Incoming master exchange students can only choose a complete 'MSc1' package and are not allowed to make their own combination of subjects from different 'MSc1' packages.

² The Faculty of Civil Engineering and Geosciences has only limited possibilities to accept students who would like to undertake research-based project-/thesis work during their semester at TU Delft. Please note that only projects with a maximum workload of 10 ECTS are allowed and that students need to combine such a project with courses for at least 15 ECTS.

Academic culture

TU Delft is a highly valued and rated institution recognized worldwide for the quality of its academic environment. Our exchange students enrich our academic culture and offer an invaluable contribution to learning. We aim to make your transition to academic life at TU Delft as smooth as possible and plenty of practical information on this can be found on our website [Academic culture](#).

Study credit system

TU Delft uses the European Credit Transfer System (ECTS) shared by all universities in the European Union. One academic year provides you with a total of 60 ECTS credits. One ECTS credit is equivalent to a study load of 28 hours (including lectures, laboratory courses, practical work, assignments, projects, private work – in the library or at home – as well as examinations or other assessment activities). **Bachelor's programmes at TU Delft consist of 180 ECTS and Master's programmes, 120 ECTS.**

Exchange students should be able to obtain a minimum of 24 credits per semester at TU Delft. At least 70% of the ECTS credits of the courses should be obtained at the faculty in which they are enrolled³.

Voluntary Introduction Programme

An Introduction Programme is held by TU Delft in August 2014 and February 2015 for all incoming international students, including our exchange students who are invited to participate on a voluntary basis. During this programme, organised by our Central International Office, you get to meet with faculty and fellow students, and take part in activities designed to familiarise you with the education system as well as life in Delft and the Netherlands.

More information about this programme and the payment deadline can be found on our website [Services for Exchange Students](#) (Costs of August programme EUR 250,-- and February programme EUR 75,--). To participate in the Introduction Programme please indicate this on your exchange acceptance document, which will be sent to you after you have been admitted. A limited number of places are available for exchange students and are allocated on a first-come, first-served basis.

Language of instruction and language requirements

The language of instruction in the Bachelor's programmes is Dutch with the exception of the Aerospace Bachelor's which is fully taught in English. The Applied Earth Sciences Bachelor's will be fully taught in English as of September 2014. The Nanobiology Bachelor's is partially in English. All Master courses are given in English. Students coming to TU Delft are therefore required to have a good command of the English language that is equivalent to:

- an TOEFL (Test of English as a Foreign Language) score of at least 90 (internet-based test). Please note: we only accept the TOEFL *internet-based* test;
- an IELTS (academic version) overall band score of at least 6.5;
- a passed University of Cambridge 'Certificate of Proficiency in English' or the University of Cambridge 'Certificate in Advanced English'.

TU Delft Language skills policy for EEA-students

Our language skills policy is based on the Erasmus+ guiding principle of the EC that the sending institution (as per the E+ bilateral agreement with the receiving institution) will provide the necessary language support such that all nominated candidates will demonstrate the recommended level of language proficiency for their programme or teaching period before commencing their exchange. We trust our partner universities to nominate students with language level C1 or higher in English. Students do not need to provide test results; a statement from their home university signed by the Erasmus+ coordinator or a representative of the Language Institute is sufficient.

TU Delft carefully monitors the English language proficiency of incoming exchange students. Should a student's language ability on arrival not reflect the level necessary for the successful completion of their programme, he or she may be asked to take an English proficiency test at the TU Delft Language Institute (costs approx. € 40). This should only incidentally be necessary. If a student does not fulfil the TU Delft language requirements, our partner university will receive a warning and, in the case of additional students from the same university not fulfilling our language requirements, the university in question may lose its 'right' to send exchange students with only a 'Statement of Home University'. Students will thereon be required to submit an official language test result (TOEFL, IELTS or Cambridge Certificate).

TU Delft language requirements for non-EEA students

Proficiency of English as to be demonstrated together with your application form for exchange programme:

- an original TOEFL test with a score of at least 90 (internet-based test);

³ Exchange students at the Faculty of Architecture and the Built Environment should take all their courses there. Also, it is not possible for exchange students from other faculties to obtain credits at the Faculty of Architecture and the Built Environment

- an original Academic IELTS test with a score of at least 6.5 on average;
- the University of Cambridge 'Certificate of Proficiency in English' or the University of Cambridge 'Certificate in Advanced English'.

Note: the language test results should not be older than two years before the start of the academic year. Nationals from the USA, the UK, Ireland, Australia, New Zealand and Canada are exempt from the English test requirement.

Dutch grading scale and average grading results of TU Delft BSc and MSc students

Grading systems and 'grading culture' vary from country to country. The Dutch grading scale, implemented from primary school through university level, goes from 1 (very poor) to 10 (excellent). At TU Delft final marks are rounded off to whole and half figures. A 6.0 is a pass. Although the scale runs from 1.0 to 10.0, the marks 9.0 and 9.5 are not frequently awarded and 10s are extremely rare. The definition of the marks is as follows:

Mark	Definition
9.5 – 10.0	Excellent
8.5 – 9.0	Very good
7.5 – 8.0	Good
6.5 – 7.0	More than satisfactory
6.0	Satisfactory
4.5 – 5.5	Nearly satisfactory
3.5 – 4.0	Unsatisfactory
1.0 – 3.0	Very poor

Sometimes a 'V' is awarded instead of a mark to indicate that the requirements for a particular subject have been fulfilled. The average grading results of TU Delft BSc and MSc students are available at: [TU Delft average grading results](#)

Transcript of records upon leaving

Exchange students are advised to request an official transcript of records at the end of their study period from the faculty coordinator for international exchange.

Fees, registration, job allowance, insurance, visas and accommodation

Payment of fees and other finances

Exchange students pay tuition fees to their home university and are therefore exempt from paying tuition fees at TU Delft. All exchange students are, however, responsible for covering any personal expenses including accommodation, textbooks, passport and visa costs.

Administrative status of exchange students

Exchange students are enrolled as full-time non-degree students. You can be registered at TU Delft for an uninterrupted period of 12 months maximum. Please note that it is obligatory that you remain registered as a regular student at your home university.

Any exchange student wishing to continue their studies after the exchange period of 12 months must register as either a regular student at TU Delft if your objective is to obtain a degree from the university or as a free mover⁴ (who cannot obtain degrees). Both statuses require the payment of tuition fees. Free movers may be registered at TU Delft for an uninterrupted period of up to 12 months.

Students and jobs

During your exchange period at TU Delft you are only permitted to engage in part-time employment, either paid or unpaid, if you have acquired the approval of your [coordinator for international exchange](#).

Health and liability insurance

TU Delft requires all students who need a Dutch residence permit to take out a Dutch health insurance. A liability insurance is not mandatory but strongly recommended. If you do not require a Dutch residence permit we advise you to arrange for yourself health (and liability) insurance (tudelft.nl/insurance).

⁴ The Faculty of Aerospace Engineering, the Faculty of Architecture and the Built Environment, the Faculty of Electrical Engineering, Mathematics and Computer Science and the Faculty of Industrial Design Engineering do not accept free mover students.

Visa/residence permit requirements

At TU Delft we offer assistance to non-EU students in arranging visas and residence permits. Any student studying in the Netherlands is required to meet specific visa of residence permit requirements. Non-EU students coming to TU Delft must provide documentary evidence of sufficient financial means to support themselves for the period of stay. Students will receive more information about this after they have been admitted (tudelft.nl/visa)

Accommodation

Student accommodation is not available on campus at TU Delft, but arranged by the university in cooperation with the DUWO housing corporation ([DUWO](https://duwo.nl)). DUWO can provide our international students with shared accommodation in a flat with other students, where students have their own bedroom, a shared kitchen and bathroom facilities, internet access and usually a washing machine. Furnished private apartments are also available (with their own kitchen and bathroom facilities). All accommodation is situated within three kilometres of the university.

DUWO provides a contract for a fixed rental period of one or two semesters. This means that you are bound for the full term of the contract and must decide in advance whether you want to have a contract for the first, second or both semesters. Rents range from 450 to 600 euros per month depending on whether you have a private unit or accommodation with shared facilities. The rent covers gas, water, electricity, internet connection and municipal taxes. You will receive more information about how to apply for DUWO housing after you have been admitted (tudelft.nl/accommodation)

DELFTULIP

[DELFTULIP](#) is the online information and communication platform for our international students at TU Delft. After you have been admitted or conditionally admitted you will receive an invitation to join this (private) community.

Please note: As an Exchange student you can make use of the social network and information on the introduction programme available on the site. Enrolment information, however, is for the exclusive use of MSc students who are following a two-year master's programme at TU Delft.

Faculty of Aerospace Engineering

Undergraduate programme (BSc):

The undergraduate Bachelor's programme is taught entirely in English. It focuses on the multidisciplinary field of aerospace engineering and the designing of the aerospace vehicles. The aircraft, rocket and satellite are studied in every course.

Master's programme (in English):

- Aerodynamics and Wind Energy;
- Flight Performance and Propulsion;
- Control and Operations (incl. Air Traffic Management);
- Space Flight;
- Aerospace Structures and Materials.
